about us

Founded in 1964 in Kucuk Langa, Istanbul, Kleopatra Button operates in the sector with its 3000 m² production facility areas in Istanbul, Güngören and its Merter store which is open since 2016.

Active production processes are carried out in accordance with last technologies at the manufacturing, dyeing and molding departments in the production areas. Kleopatra Button continues its activities with an environmentally friendly brand awareness with its recycling and waste pools.

The main group of products are: plastic button, pearl button, buckle, chain and accessories. Special designs and orders requested by business partners are also produced.

Kleopatra Button continues its 58 years of experience with 3 generations, following the trends with its expert production and R&D teams in the sector and produces products in accordance with OEKO-TEX ground rules.

Kleopatra Button, which exports to African and Asian countries and especially to Europe, has the potential to export to all parts of the world.

our mission

We serve our products to our customers in the best way at design, production and delivery stages by adopting environmental and human rights as our main principle.

our vision

To be a brand that adds value to the sector by providing high service standarts to its current and future business partners
